RE: Dragon-Line \$1000 Credit Giveaway  
FOR RELEASE: IMMEDIATELY

### Dragon-Line \$1000 Credit Giveaway at 3i SHOW

DODGE CITY – Dragon Line, LLC is “Transforming Pivot Irrigation through Drip Technology” and wants to help one lucky 3i SHOW attendee do the same by offering a **\$1000 Credit Towards a Complete System or Filtration Assembly**. Registrations will be accepted beginning 9 a.m. opening day, October 12, and one winner will be drawn on Saturday, October 14, at 11 a.m. in the Dragon-Line booth I-224 and 226.

Dragon-Line is available through local pivot dealers all over the USA, and saves producers 20-50% of water usage, bringing precision irrigation to precision farming.

Dragon-Line is “the **orange** dripline tubing” with pressure compensating emitters spaced every 6” or 12” that are welded to the internal wall of the dripline and fully operational at 7 psi. A 10’ Dragon Flex Hose attaches to the irrigation pivot drops or manifold to ensure no kinking while reversing in the dripline. Emitting a uniform water pattern as it drags across the soil surface, thus the name “Dragon-Line”, greatly reduces water evaporation from wind drift and allows deeper percolation to the plant’s root zone where it is needed most. Driplines are spaced between 20”-80” lateral lines, depending on the soil type and crop. Available in high line application, it is best for taller crops such as corn, small grains, etc.; or a low line application for milo, wheat, soybeans, onions, alfalfa, mint, etc.

Saving water is not the only benefit. Dragon-Line can reduce or eliminate wheel track issues, allow possible winter watering without ice accumulation on pivot, eliminates leaf burn, plant shock from sudden temperature changes, reduces the potential for plant diseases, and allows liquid fertilizers to be applied directly on the soil instead of the plant. Benefits continue to emerge as Dragon-Line is used in diverse production areas. Call 800-424-3724, visit [www.DragonLine.net](http://www.DragonLine.net), or stop by during the 3i SHOW to receive more information about Dragon-Line and its benefits.

For complete information regarding the 63rd Annual 3i SHOW to be held October 12, 13, and 14, visit [www.3ishow.com](http://www.3ishow.com), or contact the WKMA office directly toll-free at [877-405-2883](tel:877-405-2883) or locally at [620-227-8082](tel:620-227-8082).
