TO: News Media  
FROM: 3i SHOW/Western Kansas Manufacturers Association, Eddie Estes,  
CEO  
RE: Blattner Feedlot Demonstrations at 3i SHOW  
FOR RELEASE: IMMEDIATELY

### BLATTNER DEMONSTRATIONS AT 3i SHOW ‘The Duke’ and Hydraulic Squeeze Chutes

DODGE CITY – Blattner Feedlot Construction and Livestock Equipment is returning to the 65<sup>th</sup> Annual 3i SHOW March 21-23, 2019, with on-demand demonstrations! Blattner will be featuring their 110 and 220 Hydraulic Squeeze Chutes as well as "The Duke" Portable Wheel Corral in spaces I-373, 375 and 377 on the dirt side of the Western State Bank Expo Center in Dodge City.

"The Duke" Portable Wheel Corral features a large catch pen on one side and a “bud box”, or smaller pen, on the other. A sheeted gate helps direct the flow of cattle down the alleyway, which has two 4-foot cut gates and two palpation/access gates on the end. The heavy-duty framework makes for a durable and long-lasting corral with an adjustable hitch, a 2-5/16" ball mount, and one large cylinder on the front to raise and lower the frame.

Blattner’s chutes have a hydraulic head and tailgate with hydraulic squeeze. The chutes offer rubber flooring for increased traction and lasting durability, double side exits, adjustable pivot controls, partially sheeted access gates and removable access gates. The spring-loaded gate latches accommodate inside working dimensions of 90’ long by 67’ tall.

Blattner Feedlot Construction & Livestock Equipment has been manufacturing quality commercial feedlots, gates and fencing supplies since 1978. The company began designing and manufacturing efficient, affordable, and safe livestock handling equipment in 1992 for the growers and producers of today’s beef. For complete product information, visit Blattner at [www.BlattnerLivestock.com](http://www.BlattnerLivestock.com).
