Fairbank Equipment Offering On-Demand Demos at 3i SHOW

DODGE CITY – Fairbank Equipment is showcasing the SureFire QuickDraw 3000 trailer at the 3i SHOW March 18-20, 2021, with on-demand demonstrations. Do not miss this crowd-pleasing spray tender demonstration being held in exhibit spaces I-247-251 on the concrete side of the Western State Bank Expo Center in Dodge City!

The SureFire QuickDraw 3000 is a fully automated spray tender system that can be utilized on a trailer or in a bulk plant for precision measurement of chemicals into a sprayer or tender. Manually calculating product amounts is a thing of the past as the QuickDraw calculates the amount of each chemical in a batch, including manually added chemicals. Its integrated system makes creating repeatable recipes easy, the micro-motion mass flowmeter requires no calibration, and the closed system offers the tremendous safety benefit of eliminating operator exposure to chemicals. QuickDraw features also include an iPad App and remote connectivity with multiple data features.

Fairbank Equipment will also be displaying the Brehmer Overhead Discharge Truck Mount Fertilizer Tender in their booth space! Built with the highest quality standards, Brehmer's truck mount fertilizer tender features a 270-degree rotation auger system, EZ Slide Gates system, a max unloading capacity of 3500-4000 lbs/min, and much more!

Fairbank Equipment has provided customers with outstanding products and service for over 70 years. The cornerstone for their growth has been the commitment of every employee to provide exceptional service, product

knowledge and same-day shipping. For more information about the QuickDraw system, the Brehmer Tender or other products lines offered by Fairbank, visit www.FairbankEquipment.com.
