RE: Production Plus Presentation at the 3i SHOW
FOR RELEASE: IMMEDIATELY

DODGE CITY – Dave Nash, owner and operator of Production + Plus Irrigation Well Rejuvenation, will introduce his company and inform attendees of “the most economical way to get more water” during his presentation on Friday, March 19 at 1 p.m. Attendees can learn more by visiting them online at GetMoreWater.com or stopping by their exhibit space I-38 during the 2021 3i SHOW, March 18-20.

In almost every irrigation well, blockages exist that are restricting the maximum flow of water. These blockages may include but are not limited to, rusty perforations, clay and drilling mud, drip oil, algae, clogged pump screens, and slit.

Production + Plus guarantees their process will remove those costly blockages and give you the maximum available water production *without* pulling the pump! In over 90% of the wells cleaned by Production + Plus, production is increased.

The presentation is free and open to anyone attending the 3i SHOW at the Western State Bank Expo Center in Dodge City, Kan. For events in the Presentation Area, seating will be spread out in a larger area at the back of the WSBE concrete floor. The larger area will allow those from the same household to sit together and provide more space between rows.

Like and follow the 3i SHOW on Facebook and Twitter to stay up to date as events and activities are finalized. Western Kansas Manufacturers Association (WKMA), sponsor of the annual 3i SHOW, may also be contacted directly toll-free at 877-405-2883 or locally at 620227-8082. WKMA’s office is located at 1700 E. Wyatt Earp in Dodge City, Kansas.
